

## CLINICS:

- Clinics run from 1 to 5 days and are tailored to meet the needs of the group attending.
- The cost is \$150\* per day and includes a relevant training DVD (with printable lesson plan).
- Auditors are welcome and the cost is \$50 per day (no DVD included).
- Participants and auditors may purchase any Kandoo Equine training DVDs for 50% off retail price on the day.
- Clinics are held at Kangaroo throughout the year or you can organise one at your venue as Kate regularly travels around Australia and internationally.
- Kate brings one or two horses to each clinic so that you can see where the lesson is heading and 'feel' a horse that has already learned the lesson.

Clinic 1: Teach your horse 'hips to the fence' for mounting and 'give to the bit' on the ground and under saddle.

- **LEARN** – How to teach your horse
- **UNDERSTAND** – How your horse learns and behaves the way he does
- **ACHIEVE** – Get your horse working in-frame and light in the bridle

Your first clinic is designed to set you up for success with your horse training goals.

After setting a solid foundation in the first clinic, participants move on to controlling all the horse's body parts and training their 'dream' equine partner whether it be in dressage, trail riding, showing, ASH, jumping or any other discipline – the choice is yours.
