

Kola

In order to really understated Equine Perfection's achievement with Kola you really need to know where we started and to do that and for me to remain impartial I asked friends who knew her to sum her up in just one or two words. They are as follows: She is "aggressive", "in your face", "a devil", "dangerous", "challenging", "dominant", "attitude on four legs", "far too quick and far too intelligent for her own good", "I'm pleased she isn't mine", "I don't know how you've put up with her for so long".

For my part I am totally committed to her & I knew she & I need to get this right and I had to choose my trainer very carefully to do the right thing for both Kola and I.

Kate & Alan had achieved far more than my expectations, they have transformed my green, un-backed 4 year old I thoroughbred mare in only 3 weeks into a balanced, calm, safe, light, responsive, dressage horse that anyone would be proud to own, and even more once home, she has continued to blossom and maintain all the lessons learnt because I was part of the programme too.

A big big thank you to both Kate & Alan from the bottom of my heart from Kola and I for everything I always knew I had a brilliant horse to be proud of and you realised that dream.

I cannot recommend Kate & Alan highly enough so much so 3 of my friends have already booked up achievements speak for themselves.

Fond Regards

Krysia Rowland
